# SECUPRO MAXISAFE

NO. 101806

Original size

#### 3-sided slider

With the right hand? With the left hand? From the top? Regardless of how you wish to activate the blade, SECUPRO MAXISAFE is totally flexible. Its 3-sided slider allows for comfortable, variable handling.

#### At the press of a button

Your two hands alone are enough to change the blade. And these short instructions: press the blade change button and swing open the handle. Push the blade carrier to the front and you can change the blade. It's that easy.

#### Metal guard

SECUPRO MAXISAFE is not afraid of a little friction. A metal abrasion protection shield, found on the underside of the knife head, works to prevent any general wear and tear as you cut your path through the day.

#### Double-edged blade

Don't change your blade the moment the tip turns blunt. Double the usage time of your blades and minimize wastage by always remembering to flip them over. Don't forget: there are two sides to every blade!

#### Small eyelet

No one likes to lose their tools. Especially not tools like the SECUPRO MAXISAFE. That's what the eyelet is for; to safely transport and/or tether your cutter.

## Maximum comfort. With a 3-slided slider.

Are you often only satisfied with the maximum? That connects you to the SECUPRO MAXISAFE, our safety cutter with the fully automatic blade retraction. Thanks to its large blade extension, it masters even 3-ply cardboard boxes - depending on the blade shape attached - but also all other materials such as carpets or foils, for example. It also provides maximum comfort, whether you are right or left handed. Another special feature: the rounded off blade tip.

## PRODUCT FEATURES

	<b>NO. 99</b> 0.63 mm, deep-edged
	<b>NO. 199</b> 0.63 mm, deep-edged, stainless
	<b>NO. 98</b> 0.63 mm

### Certificates and awards

### Application

### Safety technology

### Fully automatic blade retraction – a very high degree of safety

The fully automatic blade retraction of the SECUPRO MAXISAFE guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle the moment it leaves the material being cut. Even when the slider is being held forward.

# THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.

## SECUPRO MAXISAFE

- › 3-sided slider
- › Fully automatic blade retraction
- › Notable cutting depth (cuts up to 3-ply cartons)
- › Metal cap for wearability
