SECUPRO 625

NO. 625095

Original size

Excellent ergonomics

We have rarely produced a cutting tool before that fits so perfectly into the heavy users hand as the SECUPRO 625. The long and smooth lever, the round shape of the handle and the soft grip at the back of the knife – it's more than worth testing it!

Robust and balanced

You can see and feel that the handle is made of high-quality aluminium. Its robust construction goes hand in hand with an optimal weight distribution. Consequently, there's almost no risk of weakening for tool and user. Not even when cutting very heavily.

For heavy-duty use

Tough cutting materials or changes in cutting direction present no problems for the SECUPRO 625 with its short trapezoidal blade. This makes the knife ideal for high-resistance cutting tasks, e.g. rubber or material off a roll.

Goods protection

With a cutting depth of "just" 15 mm, most types of packaging can be opened without the blade coming into contact with the contents. Extra protection is also provided by the rounded blade tip.

Safe along the line

While you rely on the blade retraction at the front part of the handle, there's another safety feature built in for even more protection. You can lock the lever and thus avoid that the blade is released unintentionally.

Long lever. Short blade. Long-lasting enjoyment. With rounded trapezoid blade.

The SECUPRO 625 with short blade extension is also one of our best ergonomic squeeze-grip knives. Its aspiration is very clear: premium. Because it offers all that professional users require: an aluminium handle, an easy and smooth lever to release the blade, shorter cutting depth combined with a very high safety due to the fully automatic blade retraction and a comfortable blade change. All in all, you will know that you have a high-end cutting tool in your hands.

PRODUCT FEATURES

Technical features

	Very high safety		Tool-less blade change
	Very abrasion resistant		Very ergonomic
	Safety lock		2-cutting edge blade
	Cutting depth		Rounded-tip trapezoid blade

Application

Safety technology

Fully automatic blade retraction – a very high degree of safety

The fully automatic blade retraction of the SECUPRO 625 guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle immediately after leaving the material being cut. Even when the lever is still being squeezed.

THE PERFECT FIT FOR ALL.
DOES THE PERFECT JOB.

- › Squeeze-grip knife with shorter cutting depth
- › Fully automatic blade retraction
- › High-quality aluminium handle incl. soft-grip
- › Designed for heaviest strains
- › GS-certified for approved safety

PRODUCT DETAILS

Order No.	NO. 625095.02	
Packaging unit	1 in single unit box (10 in multipack)	
Knife size (L x W x H)	154 x 22 x 59 mm	
Main material	Aluminium	
Weight	151.0 g	
Cutting depth	15 mm	
Spare blade	NO. 60095.70	
Packaging unit	(10 in transparent pack)	
Size (L x W x Thickness)	40 x 19 x 0.63 mm	
Certified	GS certificate NO. 179729-7166-55094-2020/1	
Accessories		
BELT HOLSTER L		NO. 9922
BELT HOLSTER XXL		NO. 9924
TOOL RETRACTOR		NO. 9960
USED BLADE CONTAINER		NO. 9810
WALL MOUNT BRACKET USED BLADE CONTAINER		NO. 9845
SAFEBOX		NO. 108000

CONTACT AND SERVICE

What makes our cutting solutions even safer?
Our advisory services! We are always on hand,
to give advice, to provide you with training ma-
terial, to meet with you in person if necessary.
