

SECUMAX 320

CUTS EVEN BETTER THAN IT LOOKS.

THE SAFER WAY TO CUT.

martor

SECUMAX 320

NO. 32000110

Original size

Safety first

The concealed blade and rounded nose reliably protects you and your products. At the same time, the knife head is designed to ensure that cutting materials optimally reaches the blade.

Blade change made easy

For efficient cutting, make sure to turn or replace the blade regularly: Simply lift up the blade change button and remove the cover. You can then directly access the 4-cutting edge blade.

Perfect ergonomics

The rounded handle fits snugly in your hand for effortless cutting, particularly of film and strapping band. The pre-set cutting angle is also beneficial for your hand and arm and supports you in your tasks.

Optimised blade area

Just two examples: The cutting channel is formed so that your safety knife moves away the freshly cut material even faster. Diagonal cuts are also easier than ever to perform. Your benefits: Less effort required for the task.

Sustainable built

The SECUMAX 320's handle casing is made from at least 80% recycled plastic plus fibreglass. A long service life is also ensured by the high-quality material and first-class build. This also contributes to environmental sustainability.

Film cutter, state-of-the-art.

The environmentally friendly SECUMAX 320 instantly impresses with its award-winning design. Closer examination reveals its inner values. The SECUMAX 320's ergonomic handle casing is made from at least 80% recycled plastic plus fibreglass reinforcement. It has a blade head specially designed for opening film and strapping bands and splitting adhesive tape. Its concealed blade guarantees maximum work safety.

PRODUCT FEATURES
