

TECHNICAL DATA SHEET

SECUPRO MAXISAFE NO. 10130610

Safety technology

Fully automatic blade retraction – a very high degree of safety

The fully automatic blade retraction of the SECUPRO MAXISAFE guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle the moment it leaves the material being cut. Even when the slider is being held forward.

SAFETY KNIFE WITH FULLY AUTOMATIC BLADE RETRACTION FOR RIGHT AND LEFT HANDERS.

Order No. 10130610.02

Perfect handling – from every side. With a rounded-tip trapezoid blade.

The SECUPRO MAXISAFE has been making an impression for more than 15 years due to its lightness and wide range of applications. The safety knife has now reached new levels of ergonomic design. Just hold the 3-sided slider in your hand and try it out ... notice the difference? And it still has all the tried and tested features – such as fully automated blade retraction and a robust handle made from high-quality plastic.

Ergonomic handle

The plastic handle now sits even better in the hand thanks mainly to the new shape of the knife's back. The slider and blade change button have also been improved for efficient operation.

3-sided slider

From the right? From the left? From above? Regardless of how you want to activate the blade, all options are availa-

ble with the SECUPRO MAXISAFE. What's more, the 3-sided slider is now grooved for better grip.

At the press of a button

Your two hands alone are enough to change the blade. And these short instructions: press the blade change button and swing open the handle. Push the blade carrier to the front and you can change the blade. It's that easy.

Metal guard

SECUPRO MAXISAFE is not afraid of a little friction. A metal abrasion protection shield, found on the underside of the knife head, works to prevent any general wear and tear as you cut your path through the day.

Double-edged blade

Don't change your blade the moment the tip turns blunt. Double the usage time of your blades and minimize waste-age by always remembering to flip them over. Don't forget: there are two sides to every blade!

PRODUCT FEATURES

Technical features

	Very high safety		Tool-less blade change		Abrasion resistant		Ergonomic
	2-cutting edge blade		Cutting depth		Rounded-tip trapezoid blade		Ceramic blade insertable blade
	For right and left handers		Lanyard hole		Printable for promotional purposes		

Main cutting materials

	Wrapping, stretch, and shrink foil		Yarn, cord		Felt		Fleece
	Bagged goods		Textile, material				

Installed blade

NO. 60099
0.63 mm, rounded blade tips, deep-edged

Optional blade

NO. 60099C
0.65 mm, ceramic, rounded blade tips, deep-edged

NO. 99
0.63 mm, deep-edged

NO. 199
0.63 mm, deep-edged, stainless

NO. 98
0.63 mm

BLADE CHANGE

To change the blade, **press the button** at the end of the knife and fold open the upper half of the handle.

Release the blade carrier by **pressing down and pushing forward**, as indicated.

Now either **rotate or change the blade**, before pulling the blade carrier back into its original position.

Finally, fold the **upper half of the handle back down** until it snaps into place. Please check blade retraction!

SAFETY INSTRUCTIONS

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please always use the product carefully for manual cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard. As an additional safety measure, we recommend the wearing of safe gloves.

2. Special application instructions to avoid the danger of injuries: Only use knives that are in perfect condition and have sharp, clean and undamaged MARTOR blades. Employ the utmost care when handling the knives. Prior to use, familiarise yourself with the safety features and their functioning. Ensure that these safety features are not impaired by the type of material to be cut. **CAUTION:** The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade! Do not place your free hand in the line of cutting and never cut directly towards you.

3. Replacement of spare parts: Replace any blades that become dull at the right time! Use only the replacement blades from MARTOR for this purpose. Dispose of old blades in a

proper fashion. They should not be placed in a waste paper bin, as this poses a considerable danger of injuries. Never perform any repairs yourself. If the knife shows signs of aging or any other wear, e.g. which impair safety features, blade changing or usage, the knife must be taken out of service and replaced. Do not modify this product in any way. Modifications of any kind may impair product safety. **CAUTION:** The risk of injury caused by manipulation of this product is extremely high.

4. Non-use of the knife: Always secure the blade in such a way (depending on product type) that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: To guarantee a long service life, always keep the knife clean and do not expose it to unnecessary soiling and humidity.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER S WITH CLIP NO. 9920

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER S is a robust holder that allows you to carry all compact MARTOR cutters as well as our safety scissors at all times. In addition, the compartments are designed to allow you to load different tools: for example you can also carry a pen or a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.

HOLSTER LARGE NO. 9843

Your cutting tool will feel comfortable in this 'no-fuss' plastic HOLSTER. Attach it to your belt or with a clip to „utility“ pockets, or use it as a knife station at your workplace.

USED BLADE CONTAINER NO. 9810

You can fill the USED BLADE CONTAINER with the content of your SAFEBOX. Or directly with your used blades. When the box is full, turn the lid until it shuts. Now the box cannot be reopened. The next step is to safely and completely dispose of the filled USED BLADE CONTAINER as normal waste.

WALL MOUNT BRACKET USED BLADE CONTAINER NO. 9845

Include it in your order now! With this mounting bracket you can fix your USED BLADE CONTAINER to a central location. Use the clamp and screws and nuts supplied with the product to attach it to either a pipe or a rod.

SAFEBOX NO. 108000

The SAFEBOX is large enough to store a large number of used blades safely. And at the same time, it is compact enough to carry with you. The two slits are not only used for filling, but also to „shorten“ your snap-off blades. When your SAFEBOX is full, empty it into your USED BLADE CONTAINER.
