

TECHNICAL DATA SHEET

SECUPLUS 210 NO. 210001

Safety technology

Bladeless

The tool does its work without a blade. There is no cutting edge on which you can injure yourself. This special protection eliminates the possibility of cutting accidents.

BLADELESS TOOL FOR TEARING OFF PAPER.

Order No. 210001.13

Split paper without a blade – in single layers.

The SECUPLUS 210 is ideal for processing roll material. Thanks to a stable edge on the top, it is able to split individual layers of paper from the roll. Since there is no blade, cutting injuries are impossible. And material shrinkage is also kept within limits. Because the ergonomic SECUPLUS 210 can not only be inserted precisely into the selected layer. It also glides over the surface without leaving any marks.

Bladeless

The SECUPLUS 210 made of plastic works without a blade. There is no sharp cutting edge on which you could injure yourself. This special protection considerably increases your safety at work.

Bevelled edge

The top edge is shaped exactly so that you can use it to rip paper layers. Condition: The paper is under tension. The curved knife nose paves the way into the roll.

Smooth contact surface

The underside of the SECUPLUS 210 is completely smooth and straight. So you don't lose speed in the roll. You can glide through comfortably – while the splitting work is done further up.

Ergonomic handle

You move the paper splitter forward by pushing. It is very pleasant that the rear part of the tool is rounded. This avoids pressure points and other discomfort.

		Customs tariff number	39269097

SAFETY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. Usage advice: Please use the product carefully for described work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the cutting tool into account in this regard.

2. Special application Instructions to avoid the danger of injuries: Only use cutting tools that are in perfect condition and have sharp, clean and undamaged blades. Employ the utmost care when handling the knives. **CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade!** To reduce the danger of injuries, hold the hand that is being used to restrain and stabilise the

cutting base in such a manner that the restraining hand or even other body parts are not endangered in the event that the knife slips. Do not modify this product in any way. Modifications of any kind may impair product safety. **CAUTION:** The risk of injury caused by manipulation of this product is extremely high. When both cutting edges are no longer sharp, dispose of the knife as general waste.

3. Non-use of the knife: Store the knife in a secure place.

4. Care instructions: Always keep the knife clean and do not expose it to unnecessary humidity to safeguard a long service life.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

TOOL RETRACTOR

NO. 9960

The TOOL RETRACTOR protects your cutting tool from loss and from falling down. Its core is the heavy-duty Kevlar cord that can be extended up to 90 cm. As soon as you let go of your knife, it is returned to you via the flexible cord. Your hands are free for other activities – the knife always remains at hand. The carabiner is designed for your belt loop, the steel cord at the other end fits through the eyelet of your cutting tool.
